- Training manual for each course plus 6 hours of video training to take home
- Extensive hands-on machine training
- Refresher course included up to one year from initial training for 2 people/company with additional employees welcomed

Pantograms offers **the best training** in the industry!

Our specialized training does more than prepare you to operate the machine and software. It also provides you with an insightful industry-insiders perspective on running a profitable business. Our courses feature intensive hands-on machine and software study. While here, you can enjoy the beaches, diverse culture, and entertainment of the Tampa Bay area.

On-site training is also available.

Embroidery 4-Day Training

8:15 am - 5 pm (4th day until 3 pm)

DAY 1: EMBROIDERY BASICS

Learn the ins and outs of embroidery with knowledge of the supplies and tools you'll be using and the business side with pricing, copyrights and industry insights.

DAY 2: MACHINE BASICS

Learn the operation of the embroidery machine by understanding the control panel, the machine parts, cap driver, maintenance, troubleshooting and timing the machine.

DAY 3: SOFTWARE

Learn the Forté software by understanding the functions and usage of the program. Create lettering, edit designs, and basic digitizing techniques.

DAY 4: SOFTWARE

Exercises in lettering, editing and digitizing.

Digital Garment Printers

1-Day Training 8:15 am - 5 pm

Get your business running quickly and efficiently by understanding the printer setup with ink and print driver installation. Learn the RIP Pro software and the settings for Corel and Photoshop. Operation setup for white and dark color garments and printing on non-textile items. Finish training with maintenance and troubleshooting.

The apparel decorating industry brings in nearly 50 billion dollars a year.

That translates into unlimited opportunity for your start-up business! The demand for custom apparel is everywhere. Whether it's personalized or monogrammed garments and accessories, athletic apparel, or every-day corporate uniforms, custom apparel is everywhere you look. If you are looking for a fast track into this expanding industry, then we have the solution for you!

Take advantage of our industry expertise to maximize your success. Pantograms has built its reputation around helping the start-up business succeed. With over 40 years of experience in this industry, we have helped many customers start and then expand their businesses with solid support, equipment and training.

Part of any successful start-up business is access to resources you can trust and rely on. We'll provide you with our network of approved suppliers for artwork creation, new materials, and accessories.

Our **TOYOTA** factory certified machine technicians and trainers are the best in the business and are committed to providing superior service and support after the sale. Technical support is available toll-free for as long as you own your system.

Getting started in the apparel decorating business with Pantograms on your side is the best decision you can make! Put simply, we provide everything you need to be successful!

"Pantograms has the #1 service department, software division, and sales department. Everyone we talk to, that are in the business, can not believe how Pantograms is always there for us for whatever our needs are. We could not have been in business for 6 years without Pantograms."
